

# SHENINGTONKRC

## *Transponders*

From 2014, all karts must be equipped with a TAG-Heuer transponder. The club will be undertaking lapscoreing and timing by transponder for the benefit of all. It is the driver's responsibility to bring and correctly fit a transponder (see Motorsport UK Karting Yearbook Appendix 4, Section F). The battery on it must be sufficiently charged. Do not mount the transponder above metal or lead ballast. Live timing here <https://live.alphatiming.co.uk/skrc> and instant results can be found on here <https://results.alphatiming.co.uk/skrc/> If you need to purchase a transponder please search online. Weekend hire is £15, book with your online entry.
